EXPERIENCE

Marketing Manager - Verizon
August 2016 – March 2020
- Data-Driven Marketing: Leveraged Power BI & SQL for targeted strategies.
- SQL Expertise: Uncovered customer behavior and sales trends via SQL queries.
- Streamlined Analysis: Used Python & Pandas for efficient data processing.
- Interactive Dashboards: Built Power BI dashboards for real-time insights & KPI.
- Data Visualization: Created impactful presentations conveying key insights & KPI.
- Machine Learning: Integrated predictive models for optimized targeting & ROI.

PROFESSIONAL DEVELOPMENT

Actively pursued continuous learning through online courses on LinkedIn Learning and Udemy, earning multiple certifications. As Marketing Manager contracted to Verizon, participated in workshops on market research and data analysis, further enhancing my ability to lead and optimize team performance.
